

## Special Education Services

Parkway Christian Academy has the unique blessing to be able to offer the *Charis Program* as a service to our students and families. This program has been set forth to assist students who may be academically challenged and who could use additional help with knowledge acquisition, personal development, and life skills training, in order to successfully graduate high school and contribute to God's unique purpose in society.

If your child has previously received special education services in either a public or private school classroom, please indicate which of the following he/she received and/or had while there.

- Individualized Education Plan
- Individualized Service Plan
- 504 Plan
- Accommodations to meet his/her need. If so, please describe below.
